This is the documentation for MrWriter, a . . .

1 Todo

Todo before initial release

- add / remove pages

- navigate by pages

- change paper size(?)

- save gzipped .xoj files

- implement maybeSave()

- fix undo/redo

    – undo cut / paste

- fix Pen-button behaviour

- lower pressure and coordinate accuracy in .xoj. Xournal seems to limit to two digits, e.g. 23.45 instead of 23.45321.

- implement configuration(?)

New Features

- drag and drop .xoj file adds first page (or asks for the page) of .xoj file as selection to current page
  also copy paste from File manager
